# BENYEEQUATZ

*Luxury, durability and naturally.*

BENYEEQUATZ is the leading supplier and manufacturer of natural quartz surfaces with the most advanced, environmental manufacturing factory in South China. Our benyeequartz product line is ideally suited for all kinds of decoration and building, for countertops, vanities, bar tops, and for floors and walls, and other surfaces throughout various buildings.

BENYEEQUATZ is produced by using natural quartz (93%) with high-quality polymer resins and colorful pigments, wherein the mixed material are co-packed under intense vibration, vacuum, and pressure into dense slabs. Advanced processing technology brings granite/marble like colors, enduring shine, super hardness and porous free quality which prevent it from any liquid penetration. Its antipollution texture has rarely been matched by other solid surfaces or natural stone; therefore it is wide used in the field of architectural decoration.

# COLOR COLLECTION

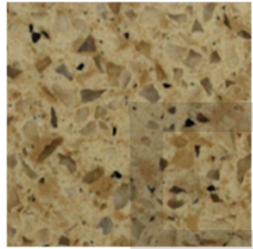

With BENYEEQUARTZ's different collections, colors and styles at your fingertips, you have an excellent starting point for endless creative possibilities. BENYEE quartz surfaces are beautifully enduring
